OUTBACK

Precisely how rugged should a mobility aid be? The Outback answers that question with commanding certainty. Punctuated by an automatic hold down mechanism which automatically secures a three or four-wheel scooter, a durable exterior design built to withstand the elements, easy installation into a standard Class 3 hitch, stabilizing pins to prevent swaying, and an easy-to-use magnetic switch that makes operating simple. The Outback was designed to bring you freedom, without compromising peace of mind.

OUTBACK ST

The Outback ST offers an exterior mounted lift designed for the most popular power chairs on the market today. What sets it apart is an innovative tie-down strap that automatically secures your power chair in one simple step. By eliminating multiple straps, you eliminate additional steps. The ST features the benefits you've come to expect.

Imagine the Possibilities
